"Recensione A scattershot but revealing dig beneath our planet's surface, illustrated with a mix of photos and schematic cutaways. **Kirkus Reviews** Visual appeal, high-interest text, and a wide scope of information inspire young readers to dig deeper---literally. **Booklist** The informative text and illustrations are sure to hold the attention of readers and spark interest in further research of the topics. **School Library Journal** Readers who dream of spelunking or who simply want to dive into a well (of information) will find much to ponder---bats and naked mole rats get spreads of their own, as does the curse of King Tut and the 2010 Chilean mine collapse---in this lively and accessible exploration. **Publishers Weekly** Jane Price gives curious young readers a sense of realms hidden from most of us ... Photographs convey the grandeur and amazing formations of certain caves, and James Gulliver Hancock's cross-section illustration of a cave city shows how it was organized in a way no photograph could. **The Washington Post** Elementary boys will devour this nonfiction book about everything underground from tombs to cities and much more. **Library Media Connection**"

Matt O'Brien, a Las Vegas writer, has been exploring this underworld for several years. In 2007, he published a book, *Beneath the Neon*, about exploring the 300 miles of tunnels that crisscross beneath the Strip. The evening I meet him, he is wearing heavy boots and, read an excerpt from chapter 1: "Descend there is another world, but it is in this one. Paul Éluard found signs of it everywhere you go: step out your front door and feel beneath your feet the thrum of subway tunnels and electric cables, mossy aqueducts. This informative yet humorous guide examines the geology and biodiversity that lies beneath the earth."
