Disabling Barriers analyzes issues relating to disability at different moments in Canadian and American history. In this volume, legal scholars, historians, and disability-rights activists explore how disabled people have been portrayed and treated in a variety of contexts, including within the labour market, the workers' compensation system, the immigration process, and the legal system (both as litigants and as lawyers). The contributors encourage us to rethink our understanding of both the systemic barriers disabled people face and the capacity of disabled people to transform their environment by changing the discourse surrounding disablement.

A historical materialist perspective weaves throughout the interestingly diverse collection of essays gathered in Disabling Barriers Social Movements Disability History and the Law This edited work seeks to bring awareness to often overlooked disability histories with an emphasis on stru
