"Críticas ?My son loves these books. We started reading National Geographic Kids books when he was about six (he's nine now) and I can honestly say that these books have been instrumental in teaching him to read. ? ? Consumer?My kids love these books. Super fun and interesting. ? ? Consumer Reseña del editor Silently they stalk, carefully they creep, with perfect precision, they pounce! Face, leopards are just SO COOL. Leopards are among the world's top predatory big cats, but that's just ONE reason why they are SO COOL. So who wouldn't want to hang out with them to learn more? These books blend amazing animal photos with silly quips and info that will delight young readers and animal enthusiasts. For example, kids can learn that leopards are the best climbers of all the big cats, that they have excellent night vision, and that black panthers are just leopards that are born black. This is the perfect little reader to get kids' brains buzzing and keep them laughing during downtime, bedtime, or anytime! Biografía del autor The National Geographic Kid is curious about the world around them, empowered in the face of challenges and responsible for others and the natural world. Combining these principles with the international educational heritage of Collins, this partnership is a natural fit for books that are funny, weird, exploratory, educational and loved by children."

**Snow leopards become mature at two to three years and normally live for 15-18 years in the wild. In captivity, they can live for up to 25 years. Females have a gestation period of 90-100 days, so the cubs are born between April and June. The mother gives birth in**
