Danny Walker's survival retreat has been devastated by violence since the detonation of the EMP. A megalomaniacal warlord has stepped in to fill the vacuum of authority left by the utter collapse of society. Regent Schlusser's designs on absolute power have already brought him to Danny's doorstep once, leaving a trail of blood and heartbreak in his wake. Another conflict with the malicious dictator will spell certain death for the remaining members of the compound. Danny's only hope is to infiltrate Schlusser's camp and bring him down from the inside. It's a risky proposition. If he is caught, he'll be executed as a spy, but there is no other alternative. In this epic struggle between good and evil, Danny's mettle will be tested, his faith will be tried, and he'll have to dig deep for the courage to continue. As with all books by Mark Goodwin, this novel contains no foul language and no embarrassing sex scenes. However, if you're more offended by biblical principles and scriptural references than profanity, this story might not be for you.
