**'Tomi Ungerer, the contemporary and friend of Maurice Sendak and Shel Silverstein, is a gentle genius and this collection of eight of the French writer and illustrator's stories, plus a biography at the back, is a beautiful collection fit to take on through a life... There is not a dud in the pack - read them all... The wonderful *Moon Man* imagines with eerie perfection what happens when the main the Moon comes down to Earth. *Otto, the autobiography of a bear*, is exquisitely told... The more simplistic but no less wonderful *Fog Island* teaches us to question myths and confirms suspicions that children are often braver than adults. *Flix*, about a pair of cats who give birth to a dog, is emotional and pertinent. East party finds equilibrium despite their difference n this non-cloying parabale. It's the right kind of story to discover this week. Ungerer's careful words and masterly illustrations are unmatched. I hope this stunning collection makes him even better known here.'--*The Times, Saturday Review*'This beautifully formatted collection of eight of Tomi Ungerer's picture books presented in a slipcase is indeed a treasure.'--*Carolyn Angus, Literacy Daily*'Ungerer has always worked to campaign against war and injustice, and his fantastical books deal with such themes, often in topsy-turvy ways... This is a beautifully produced volume, with illustrations throughout, witty and lively, as if Ungerer's characters might at any moment walk of the page... Ungerer's books are characterized by a deep sense of tolerance, with a keen naughtiness that**

undercuts any potential po-facedness... The question of whether we can know good without knowing evil is always prevalent: and this is a delightful place for a child to discover such things in a way that is both wise and humane.'--*Philip Womack, TLS (Times Literary Supplement)*'After it arrived in my mailbox, I may have walked around my living room hugging the book I'm featuring in today's post. I did. I hugged it hard. But it's that good... All of the stories in this tall collection... Are gloriously reproduced here. But there's more that makes this a must-have for Ungerer fans: an introductory note from Ungerer himself, as well as a 'Behind the Scenes' section that closes the book, in which Phaidon's Maya Gartner (Tomi's editor) chats with him about each of these books... This is a beautifully designed book (the endpapers even feature sketches) that meets the needs of both die-hard Ungerer fans, as well as those who are coming to his work for the first time... There's no one quite like Ungerer, is there?'--*Seven Impossible Things Before Breakfast*'Magnificent... Show[s] the wide range of his work... Four of the books are not currently available as separate volumes which contributes to its irresistibility, as do the interviews with Tomi Ungerer'--*CLPE.org.uk (Center for Literacy in Primary Education)*'[Ungerer's] books promote tolerance and diversity, if in a deliciously subversive way... Of course, children don't need to know any of [Ungerer's background] to enjoy these beautiful books but such personal insights make the collection even more collectable.'--*West Weekend (The West Australian)* Buchrückseite Eight classic picture books by the legendary author, brought together in one lavish slipcased volume Alle Produktbeschreibungen "
