What is belief and why is it so important? Where did it come from and what does it do? This book answers all of those questions and more! David G. McAfee, an author who studies religions, teamed up with writer and illustrator Chuck Harrison to create The Belief Book. No matter how old or how young you are, this easy-to-read book can help you learn more about religions and gods and beliefs in general. It will also teach you about something called The Scientific Method, which is how we learn new things about the world! By the time you're done reading you will know the answer to some of life's biggest questions, but more importantly you will see why your questions, and all questions for that matter, are so important. This book is the first in a series of books all about belief, gods, and religion.
