Laura Kasbar's journey from the autism diagnosis of her twins, to giving hundreds of thousands of people around the world a voice, is truly inspiring. She offers the secrets to her children's success as they go from non-verbal to entering college at sixteen-years-old, and then to independence at twenty-years-old. Embracing the Battle explains, in very simple terms, steps that people on the front lines of special needs can take to significantly improve the lives of the people for whom they care. It has received critical acclaim from parents, doctors, therapists and teachers as, "I couldn't put this book down!" is quickly becoming the most common comment. Laura Kasbar's sincerity and genuine concern for her fellow parents shines through. Her children aren't one-in-a-billion savants and she isn't Superwoman. She is just a mom with simple solutions that need to be shared with the world. Dr. Jim Sears, world-renown pediatrician writes, "I don't think I've ever been as captivated by a story as I have by this one", and he isn't alone in this sentiment. Dr. Jim Sears, M.D. Pediatrician- "I don't think I've ever been as captivated by a story.. I want everyone to read this book!" Dr. Helen Tager-Flusberg, Former President of INSAR- " This intervention is developmentally grounded and uses evidence-based practices. I am enthusiastic about how well Gemini supplements more traditional speech and language therapies... Dr. Bryan Davy, BCBP-D, CEO Touchstone Health Services "We believe that the pairing of Gemini with trained support is the way of the future and the best hope to serve the entire community." Dr. Bernard Rimland, founder of the Autism Society of America- "Laura, this message is too important. You MUST write a book!" Marie Bacsik, Mother of a child with Down syndrome and Owner of the ARCC Center in San Diego, California- " No nonsense and easy to read for a Mom like me with tips I can implement right away. I am so convinced of how beneficial this program is that I am training Gemini in our ARCC Center for all our respite workers. All I can say is "WOW"! With the right kiddo and the right coach helping navigate the system, the possibilities are quite exciting. Kelly Siebold MA, CCC-SLP
